ONE AND SIX YEAR STREET IMPROVEMENT PLAN 2019-2024

THE VILLAGE OF EAGLE, NEBRASKA

In 1970, the State of Nebraska initiated a program developed to provide an integrated system of public roads for the state, counties, and municipalities. The Department of Roads and each county and municipality develops and files with the Nebraska Board of Public Roads Classifications and Standards a long-range Six-Year plan of highway, road and street improvements.

The Six Year plan is required by law to be extended annually and kept on file with the Nebraska Board of Public Roads Classifications and Standards.

Along with the Six Year plan, a One Year plan shall be annually prepared and filed with the Nebraska Board of Public Roads Classifications and Standards for specific highway, road and street improvements for the current year.

These plans must first be approved and adopted by the Governing Body after a public hearing.

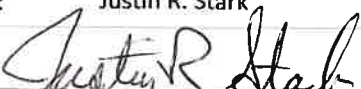

The 2019 – 2024 One and Six Year Street Improvement Plan includes the following and is described in more detail on the following NBCS Forms.

- A. The One Year Street Improvement Plan for 2019 consists of general maintenance and three projects consisting of approximately four block of street paving. The Village's share of the total estimate for these projects is \$751,000.
- B. The remaining three projects on the Six Year Street Improvement Plan for 2019-2024 consist of approximately five blocks of street paving. The Village's share of the total estimate for these projects is \$728,000.

The estimated cost of all the projects is \$1,479,000.

- C. A location map and a breakdown of the individual projects and their estimated costs are included in this report.

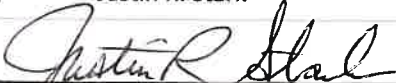

One- And Six-Year Plan Highway, Road or Street Improvement Work/Project
